ArcGIS Workshops for 2018-19

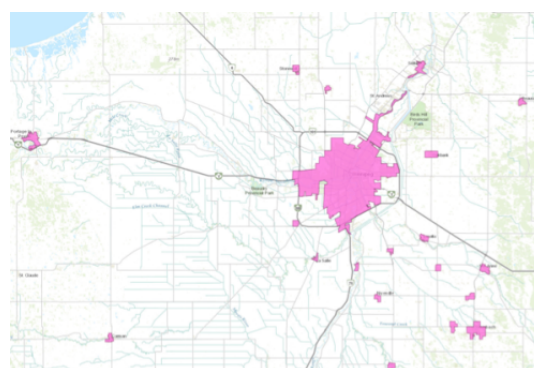

Thanks to all MBED AGOL members that replied to our Professional development [survey](#). If you have not yet completed it, please do so to make our planning more effective.

Manitoba Education and Training and MapToLearn have once again teamed up to provide Manitoba Teachers with support for ArcGIS Online consisting of four workshops and sessions at two conferences for this coming school year. Date, time and location for some of these are still to be determined. We will be updating this list as we know more.

Profiling an Urban Community - Census 2016

This two-day workshop will be offered in early November and will focus on using Census 2016 data to profile your local community. There is the potential of combining one of these days with [GISDay](#) (Nov. 14) which would also include student participation.

A local map and [Story Map](#) will be created to address questions of inquiry such as:

- In what ways has my community changed?
- What challenges and opportunities face my community?

Who may wish to attend: Social Studies teachers, in particular, those teaching Grade 9 & 10 Social Studies and Geography

Dates: Early November

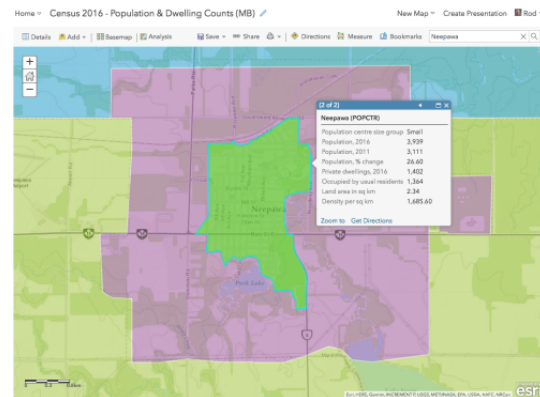

Location: Winnipeg

More specific information will be sent out via the newsletter once dates and locations have been confirmed.

Profiling a Rural Community - Census 2016

This two-day workshop will be very similar to the previous workshop with the focus on a community in rural Manitoba using Census 2016 data. The timing of these and

location are still to be determined. Currently we are still looking for school divisions that would be willing to host us. If you are interested, contact Pat or Rod for more information.

The Manitoba Social Science Teachers' Association

MTS PD Day

We will again be presenting at MSSTA this year. The AM session will introduce the basics of digital mapping with ArcGIS Online and the PM session will show how to create a Story Map with ArcGIS Online.

Date: Oct. 19, 2018

Location: Miles Macdonell Collegiate - 757 Roch St, Winnipeg, MB

BYTE Conference

We are planning to present at the BYTE conference in Virden, MB. Sessions will be similar to those offered at MSSTA (see above)

Date: TBD

Location: TBD, Somewhere, MB
